

9th GRADE CLASS OFFICERS—Vice President, Betsy Wittlinger, President, Bill Maldovan, Treasurer, Charles Marchetta, Secretary, Mary Schrader.

## HISTORY OF THE FRESHMAN CLASS

We are bringing to a close the Ninth Grade where we realized and appreciated the wonderful opportunities which were given to us here at Amherst. We were fortunate to have a swimming pool, gymnasium with basketball and many other sports and activities which we all enjoyed. We have a wonderful band, orchestra, glee club and choruses of which we are very proud.

In Seventh Grade, we realized how big and different Amherst Junior High was from our elementary schools. We were concerned about the problems of getting from one class to another in the short allotted time and also getting our lockers open in time. The teachers were especially kind and understanding to all of us confused students. We were the first Seventh Grade to have a class party, which was a big success. The Seventh Grade passed quickly and before we knew it, exams were down our necks, but we made it and had a nice long vacation before we attempted Eighth Grade.

September came and we were back in school greeting all of our friends, but we were soon back following our schedules. We were now the Eighth Graders which made us a little more important, and we now could look down on the Seventh Graders scurrying to avoid late passes. This year we joined many more clubs, participated in the Science Fair and tried our hand at writing material for the Triad. The "OP Hop" soon came up with all its wild decorations. Twenty-four lucky Eighth Graders were inducted into the National Honor Society this year.

Time has passed quickly and we have now returned for another year of school at Amherst Junior High. This year, however, we were the Freshmen. The boys all went out for some sort of J.V. or Varsity sports, while the girls, dressed in orange and black, cheered them on. Our Freshman Basketball Team came in first, with only one loss. We enjoyed the usual Intramurals, Science Fair and the dances, especially the Freshman Farewell. "The Guy from Venus" was the Ninth Grade Operetta, where some of the Freshmen proved their ability at singing and acting.

The last important event of our Freshman year was Moving-Up Day. Here we sat and listened to the speeches, and could not help but think of all the fun that we had at the Junior High and we hoped it would continue through the remaining years. The curtain was lowered for us who are now Sophomores and we will start again as the little Tenth Graders in the High School. There is no way of knowing what the future holds for us, but among us there will be some future doctors, lawyers, teachers or possibly astronauts who will be working to help future generations.
